The political Left's ultimate goal of an atheistic socialist state would seem to be completely at odds with those of Islamists who want a Sharia-compliant regime.

So why are they working together? Because they are expedient allies who share a common aim of weakening the United States so they can take over.

The collective goal of this coalition, explains James Simpson, "is to alter and undermine our national character, traditions, and laws so much that it can overthrow our constitutional republican form of government without firing a shot."

Mr. Simpson explains: "The Red-Green Axis is a collusion between the Democratic Party, American Communists, Socialists and other brands of "progressives", i.e., the Red, and the forces of the Islamic jihad, the Green—so named because the color green carries much symbolism

in Islam, and most Muslim nations feature green in flags, emblems, and other identifiers.

“The alliance allows each to take advantage of the tactics, strategies, and cultural features of the other, and mobilizes a vastly larger number of people. For example, the Council on American-Islamic Relations (CAIR) now supports Black Lives Matter (BLM) and participates in its protests. The American Civil Liberties Union (ACLU) and the Southern Poverty Law Center (SPLC) also work with BLM, CAIR, and open borders groups.”

**James Simpson is the author of the new book “The Red-Green Axis 2.0: An Existential Threat to America and the World” (2019).**

Mr. Simpson is an investigative journalist, businessman and former economist and budget analyst for the White House Office of Management and Budget.”

Best-known for his exposé of the Cloward-Piven Strategy of Manufactured Crisis, Mr. Simpson's work provided background for Glenn Beck's groundbreaking TV series on the subject.

He is a frequent guest on radio talk shows and is featured in Curtis Bowers' award-winning documentary "Agenda: Grinding America Down.”

In his latest book, Mr. Simpson explains why immigration is one of the Red-Green Axis's most effective tools:

“Under the banner of ‘compassion,’ it advocates for open borders and endless waves of refugees, asylum seekers, and other third-world immigrants to stress government

budgets at all levels, overburden communities with medical, language, crime, welfare, and other burdens, while rhetorically and sometimes physically attacking those who object, calling opponents 'racists,' 'bigots,' 'xenophobes,' and the latest innovation, 'Islamophobes.'

"This second edition of the Red-Green Axis delves deeply into the immigration/refugee resettlement issue to catalog not only the breadth and depth of the program and its supporters, but to expose the massive problems and cultural changes that have been created, I believe deliberately, as the key element in the Axis agenda to erase America as we know it."
