It's no secret that the media, the educational establishment and Hollywood are run by leftists who hate America and want to transform our nation into a top-down, socialist state that punishes anyone holding to biblical morality.

Their success in spreading this message is evidenced by surveys showing that a majority of Millennials actually favor socialism over free-markets, with a large number of young people even favoring communism despite that poisonous philosophy's unbroken history of mass murder, gulags and repression of all kinds.

The Left hates President Trump precisely because he stands in the way of their many destructive agendas and won't back down. They hope to use the impeachment charade to weaken him before he faces re-election in November 2020.

Even many Big Business leaders have joined the anti-American crusade by adopting anti-family policies and

funding leftist groups that despise faith, family and free-market capitalism.

How did we get to this point and what should we do about it?

Lt. Gen. Jerry Boykin was one of the original members of the U.S. Army's Delta Force and commanded these elite warriors in combat operations. Later, he commanded all of the Army's Green Berets as well as the Special Warfare Center and School.

On Nov. 11, STAND presented Gen. Boykin with the George Washington Award for Taking a STAND, at a gala dinner in Alexandria, Virginia celebrating STAND's 10<sup>th</sup> anniversary.

In all, he spent 36 years in the U.S. Army. He also served for four years as the Deputy Undersecretary of Defense for Intelligence. After leaving the service, he became an ordained minister with a passion for spreading the Gospel of Jesus Christ and encouraging Christians to become warriors in God's Kingdom.

As one of the members of Team B, which compiled the report "Shariah: The Threat to America" for the Center for Security Policy" (that's our friend Frank Gaffney's outfit, also home to another good friend and co-combatant, Clare Lopez) Gen. Boykin has been outspoken in warning about the threat posed by Islamic militancy here and abroad.

And it has cost him. He has had to cancel speaking engagements – even a National Prayer breakfast at West Point – after leftist groups complained.

Jerry and his wife Ashley have five children and a growing number of grandchildren, which is only appropriate given that he's now serving as an official defender of the family – as Family Research Council's Executive Vice President.
